Education

VIT Bhopal University

B. Tech

Major in Computer Science and Engineering

Cumulative GPA: 8.4/10

Bhopal, Madhya Pradesh

Expected May 2026

Projects

- OpenCV-Based Face Detection System with MySQL Database (Aug 2023- Nov 2023) + OCR (Apr 2024)**
 - Led a 5-member team in developing a 95% accurate facial recognition system using Python, OpenCV, MySQL, and Tkinter, overseeing a dataset of 13,000 images.
 - Achieved precision via algorithm tuning and advanced image processing, optimizing the model with a substantial dataset, requiring only 1 image to process.
 - Deployed a comprehensive technology stack to craft an efficient, user-friendly solution, prioritizing seamless GUI integration and robust data privacy measures, achieving a 3% faster performance than the previous version.
 - Expanded the usability of the software by adding Optical Character Recognition (OCR) to my face detection project. Achieved a 30% improvement in functionality by working in a team and contributing to open-source projects, including the development of a graphic user interface.
- Natural language processing (Jul 2023 – Aug 2023) + Sanskrit Text-To-Speech (Jan 2024 - May 2024)**
 - Collaborated in the development of a Language Guessing Program for the Android Club VIT, involving 30 team members and targeting 5 languages.
 - Integrated Artificial Intelligence and Machine Learning models to innovate the solution, enhancing program capabilities through the incorporation of 3 Python-based machine learning models.
 - As a dedicated contributor, the experience not only enriched technical skills but also solidified commitment to making impactful contributions in AI and machine learning projects, collaborating with 29 other members.
 - Implemented over 3 transliteration methods to achieve accurate results for Sanskrit speech recognition from text.
 - Collaborated with Google Translation and Microsoft Azure environments to develop a text-to-speech system with 90% accuracy.

Additional

Coding Languages: Python, C, C++, JAVA, HTML, CSS, JavaScript, MySql

Technical Skills: Machine Learning, Data Science, Artificial Intelligence, Data Structures, Web development, Genrative AI, Ubuntu, Beginner at Debian and Linux

Certifications & Training: 1. Machine Learning Specialization Stanford(ongoing) 2. Machine Learning course Android club-VIT
3. Udemey Web Development Course 4. Bits and Bytes Coursera
5. Udemey 4 courses on Python, Machine Learning, Data science ongoing
6. Linux, Debian and Ubuntu courses from The Linux Foundation.

Languages: English, Hindi, Spanish, Gujarati.

Activities

- Guided a team in the Future_Wear Hackathon, overseeing the deliberate design and development of data models incorporating 5 algorithms for a prototype with a team of five members (May 2023).
- Assisted to GSSOC (GirScript Summer of Code) this summer, aiding in the development of my open-source project. Working on Face-X repository(May 2024 - ongoing).
- Executed on a fraud detection system which uses Natural language processing using random forest and decision trees to detect any type of fraudulent activities for competition of UHackHive of unisys(May 2024 - June 2024).
- Engaged in Google Cloud Hackacloud (Aug 2023), gaining expertise in Google's cloud, mastering 10+ cloud concepts, and implementing them with generative AI at Gen_AI hackathon(Mar 2024) .
- Demonstrated excellence by sustaining a Code Chef streak in the C & C++ language, solving 82+ problems. Dedicated efforts to enhance proficiency in Data Structures and Algorithms (DSA).
- Accomplished LeetCode coding challenges, dedicatedly refining coding proficiency and honing my DSA skills for 100 consecutive days.
- Maintained an ongoing 100-day streak in Data Structures and Algorithms (DSA) coding, with a dedicated focus on enhancing conceptual understanding and mastering algorithms in many different coding languages(Python, C, C++, Java).

Responsibilities

- Played a significant role in the Sports club, committed engaging in sports events (2+) and organizing (2+) them.
- Affiliated as a dedicated dancer, contributing to and participating in performances (3+) throughout the year.

Hobbies

- Book Reader – Self-Help books, History, Politics.
- Playing Sports – Football, Cricket, Badminton.
- Dancing– Western forms + Bollywood.

Extracurricular

- Part of CSE-Core football Team for 2+ years.
- Participant in Dance Competition 3+.
